Dear Mr. Jones,

Recently, I met with Mr. Roy Yardley concerning questions he had on some of his water accounts. In March 87 he received notification for payments on accounts 15, 120, 46, 103, 13, 145~~E~~, 87, & 142. In June 87 Mr. Yardley received notification for payment of acct. 177 delinquent for years (1979-1987). This 177 assessment was based on a letter that I sent to you informing you that Mr. Strong and I had confirmed that Mr. Yardley held this water. Mr. Yardley feels that he may only possess half of the water associated with account 177. I will have to reinvestigate this water account. Mr. Yardley also has a question concerning account 145C. The 1986 delinquent water assessments showed that account 145C was delinquent for an amount of \$72. Mr. Yardley presented a check for this amount to me last year at the annual water meeting. I turned it over to you at this meeting. Mr. Yardley was under the impression that this \$72 was the total assessment on that account for one years period. This year he received an assessment on account 145C for \$233.06. He has also assumed this to be an assessment for a space of one year. If this is correct, he would appreciate an explanation as to why the amonts are so different. If you would like, notify me of the reason and I will be glad to present this information to him.

Also Mr. Yardley received late notices in Nov. for all accounts except acct. 142 & acct. 87 according to his records and recollection. He could not recall paying the assessments for these accounts earlier in the year. If money is due on these accounts Mr. Yardley will need renotification for these accounts.

Enclosed is a check from Mr. Roy Yardley for an amount of 440.10 dollars to pay the balance on his accounts. The amount of this check is based on:

acct. 145C \$256.37  
acct. 15 \$ 13.88  
acct. 120 \$ 16.89  
acct. 46 \$ 18.60  
acct. 103 \$21.29  
acct. 13 \$ 20.70  
acct. 177 \$ ~~92.37~~  
\$440.10

Thanks very much,
